### Experience

#### UI/UX Designer

YD Teck - Present

- Designed visually appealing and intuitive web and mobile applications.
- Conducted user research, usability testing, and competitor analysis to optimize designs.
- Created wireframes, prototypes, and interactive mockups using Figma and Adobe XD.
- Worked closely with developers to implement pixel-perfect designs.
- Enhanced user engagement by streamlining UI components and improving navigation.

## **Education**

### **Bs Computing**

University of Greenwich

## **My Services**

### **Web Design**

I design visually stunning, responsive websites, focusing on seamless navigation and performance optimization. My approach ensures intuitive layouts that cater to user needs while aligning with business objectives.

### **UI/UX Design**

I specialize in creating user-centric designs that enhance digital experiences. Through wireframing, prototyping, and usability testing, I deliver functional and aesthetically pleasing interfaces.

### **App Design**

I craft engaging mobile app designs that prioritize user-friendliness and performance. My approach includes creating intuitive navigation, interactive UI elements, and visually appealing aesthetics to enhance user satisfaction.
